** Based on time for time rotation and paid every month

*** These averages are not accurate for yachts/vessels/ships above 90m. Rates are usually defined on a case by case basis as working conditions differ from one ship to another.

Please note: These salary guidelines are based on the current yachting market as of January 2023. Actual salaries will always vary depending on a candidate's specific experience, training, certification, and additional skills – as well as a particular yacht's needs. This scale can be used as an example and guide to establishing appropriate salaries for experienced crew.
